Amendment No. 1 to

Draft Registrant Statement on Form S-1

Submitted December

9, 2020

CIK: 0001828791

Dear Mr. Vanderhook:

We have reviewed your amended draft registration statement and have the following

comments. In some of our comments, we may ask you to provide us with information so we

may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting

an amended draft registration statement or publicly filing your registration statement on

EDGAR. If you do not believe our comments apply to your facts and circumstances or do not

believe an amendment is appropriate, please tell us why in your response.

After reviewing the information you provide in response to these comments and your

amended draft registration statement or filed registration statement, we may have additional

comments.

Amendment No. 1 to Draft Registration Statement on Form S-1 Filed December 9, 2020

Management's Discussion and Analysis of Financial Condition and Results of Operations

Components of Our Results of Operations, page 81

You state in your response to prior comment 10 that the customer's decision as to which pricing model they choose impacts the manner in which you recognize revenue rather than the performance of the business. Considering revenue is typically evaluated to assess the overall performance of a business, it appears that a breakdown of your GAAP revenue is relevant to an understanding of your performance. In this regard, your revised disclosures indicate that you expect the percentage of revenue recognized on a net basis will increase over time. As this shift in GAAP revenue due to the pricing models selected may impact the percentage growth

in your overall revenues, in an effort to add context to these

potential trends, please tell us and revise to separately disclose the GAAP revenue

recognized from MSA versus IO arrangements for each period presented. Use of Non-GAAP Financial Measures, page 83

2. We have evaluated your response to prior comment ${\bf 16}$ and continue to believe that by

 $\,$ presenting revenue and total operating expenses net of direct costs, you have substituted

an individually tailored revenue recognition principle for $\ensuremath{\mathsf{GAAP}}$ revenue and expenses.

Please remove these measures from your non-GAAP disclosures.

Similarly, please revise

your measure of non-GAAP net revenue per active customer to comply with the non- $\,$

GAAP guidance. Refer to Item 10(e)(4)(ii) of Regulation S-K, Question 100.04 of the

Non-GAAP Compliance and Disclosure Interpretations and Rule 100(b) of Regulation G.

Results of Operations

Comparison of the Years Ended December 31, 2018 and 2019, Revenue, page 85

 You state in your response to prior comment 13 that 90% of your revenue in 2019 was

from existing customers; however, in your revised disclosure you indicate that a $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

"substantial majority" of your revenue in 2019 was from existing customers. Please revise

to remove this qualitative language in favor of specific quantification so that readers can $\begin{tabular}{ll} \hline \end{tabular}$

assess trends in this metric from period-to-period. In this regard, we note that you

 $\,$ provided similar qualitative disclosure in your comparison of interim periods, and

therefore readers are unable to determine whether the percentage of revenue derived from

new customers is increasing or decreasing. Similarly, clarify in quantified terms how

Adelphic contributed "meaningfully" to your revenues in fiscal 2019. Executive Compensation, page 122

4. We note your response to prior comment 22. Please note that executive compensation

disclosure for the year ended December 31, 2019 is required to be included in your

registration statement as that information previously was required to be provided in

response to a Commission filing requirement. Refer to Instruction 1 to Item 402(c) of

Regulation S-K.

Concentration of Risk, page F-14

5. We note your response to comment 23 and your revised risk factor disclosures. Please tell

us the number of individual advertising agencies that comprise the two advertising agency

holding companies that account for more than 10% of your revenue for fiscal 2019. Tell

us the percentage of revenue attributable to each of the agency holding companies in fiscal $\,$

2019 and to date in fiscal 2020. Also, explain further how you considered whether the

loss of either of these agencies might impact your operations and why further disclosure $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

regarding reliance on these holding companies is not necessary. In this regard, you state $\,$

that if the holding companies exert control over the individual

agencies, any loss or relationships with such holding companies and, consequently, their agencies, local
